## SUMMARY

---

Full Stack Engineer with 3+ years of hands-on experience in building scalable web applications using Next.js, Express.js, TypeScript, MySQL, and MongoDB. I specialize in creating engaging user interfaces with animation libraries like GSAP and delivering clean and efficient backend services. Passionate about learning, problem-solving, and building real-world products. Open to relocation and visa sponsorship opportunities in Europe.

## PROJECTS

---

### Meglabs – E-commerce Website

(Apr 2025)

**Skills:** Next.js, TypeScript, MobX

- Built **reusable and responsive UI components**, dynamically adapting to user-provided props.
- Integrated with **IKAS API** for e-commerce functionality (cart, checkout, etc.).
- Implemented **Sipay** payment gateway to handle secure and real-time payment transactions.
- Designed and implemented a high-performance e-commerce storefront tailored for seamless user interaction and mobile responsiveness.

**E-commerce:** [shop.meglabsswiss.com](https://shop.meglabsswiss.com)

### Draft Works – Creative Agency Website

(Dec 2024)

**Skills:** Next.js, Tailwind CSS, GSAP

- Developed a visually immersive website with scroll-triggered animations and seamless transitions.
- Built a responsive and performant UI with Tailwind CSS and Next.js.
- Achieved **1000+ unique visitors** and an **average session duration of 62 seconds**, indicating high engagement and user retention.
- Fully optimized for performance, accessibility, and SEO, achieving perfect or near-perfect scores on PageSpeed Insights: **Performance** 100, **Accessibility** 95, **Best Practices** 100, **SEO** 100.

### Badi – HR Blog & Admin Panel

(Aug 2024)

**Skills:** Next.js, Express.js, MySQL, Shadcn, TipTap

- Developed a custom WYSIWYG blog editor using Tiptap, supporting image uploads and rich text formatting.
- Built a responsive contact form connected to the admin panel for streamlined communication.
- Implemented an analytics module from scratch to track unique visitors, blog post view count, device types, and OS data, displayed in a custom dashboard.
- Created an advanced admin table view for blog posts with real-time search, sorting, and category-based filtering features.
- Integrated a single RESTful API with multiple endpoints to handle all platform data operations efficiently.

## Yanındayım – Earthquake Relief Platform

(Feb 2023)

**Skills:** Vite, Express.js, Material UI, MySQL

- Designed and developed the entire full-stack platform in just four days to support earthquake relief efforts in Türkiye.
- Delivered the platform under intense time pressure, showcasing adaptability and rapid development skills.
- Designed a full-featured post submission system with admin approval workflow to ensure content safety.
- Implemented a RBAC (Role-Based Access Control) system allowing only admins to moderate content.
- Developed and deployed a scalable backend using Express and MySQL for secure data handling.

## EXPERIENCE

### Outlier AI

Front-End Software Engineer · Contract

Remote

May 2025 - Present

- Wrote 30+ high-quality and detailed prompts to fine-tune LLMs in frontend development tasks.
- Evaluated AI-generated JavaScript/React code for accuracy, readability, and efficiency, providing rationale-based reviews.
- Conducted comparative analysis between outputs of two different LLMs for the same task, highlighting strengths and weaknesses.
- Authored detailed technical rubrics to assess and score LLM outputs, supporting the iterative training and improvement of AI models.
- Designed reusable React components, solved frontend engineering tasks, and created instructional materials for model alignment.

### Draft Works

Full-Stack Engineer · Freelance

Şişli, İstanbul

Dec 2022 - Present

- Designed and developed **visually immersive, animation-rich, high-performance, scalable** full-stack web applications tailored to clients' needs, ensuring seamless user satisfaction.
- Integrated various third-party APIs (e.g., Ikas, Formspark, Google Analytics, Sipay)
- Collaborated with designers to deliver pixel-perfect and mobile-first interfaces.
- Deployed applications using cPanel, managed web servers, configured SMTP settings, and maintained databases via phpMyAdmin.
- Maintained a score of 95+ across all four Lighthouse metrics (Performance, Accessibility, Best Practices and SEO) through meticulous optimization.

## EDUCATION

Istanbul Aydın University

Computer Programming

Küçükçekmece, İstanbul

Oct 2022 – June 2025

## SKILLS

React.js, React Native, Next.js, TypeScript, JavaScript, Tailwind CSS, Shadcn, Material UI, Zustand, MobX, GSAP, Framer Motion, Jest, Node.js, Express.js, REST APIs, GraphQL, Prisma ORM, PostgreSQL, MySQL, MongoDB, Redis, Docker, GCP, Vercel, cPanel, Git, Postman

**Languages:** English (C1), French (B1), Turkish (Native)

**Certifications:** Meta Front-End Development (Coursera), Node.js & React Developer (Udemy), Google Cloud Fundamentals (Google)
